

**The Sree Narayanan Guru Mission of the UK (SNGM UK) is a 30 year old UK registered charity dedicated to the betterment of humanity through the propagation of the teachings of Sree Narayana Guru (1854-1928), the great saint, philosopher and social reformer. We are committed to follow the values of Guru Dharma (path of righteousness, truth and duty, towards oneself and society) to foster harmony in the community through all our activities, which encourages integration and cohesion in today's multicultural society. In the UK, SNGM are committed to compliment and improve a broad range of community development initiatives, and work closely with Local Government and communities to accomplish our goals.**

The SNGM are now embarking on a project to purchase suitable premises in Croydon as a platform to offer a wider range of community development initiatives. The Building Project is designed to facilitate much needed supplementary education in Croydon and neighbouring communities. We will also provide computer based training, online coaching, meditation facilities, social services, day care center, welfare support services for the youth and the elderly as well as delivering even more community based services in the foreseeable future.

These services and activities can only be delivered to the community if we have a suitably equipped premises with ample space to accommodate the service users.
